Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

Applicant's arguments filed 12 April 2006, regarding the objection to the specification, have been fully considered but they are not persuasive.

Applicant states that the claimed subject matter finds support in the specification. The examiner agrees that the specification satisfies the requirements of 35 U.S.C. 112 1st. paragraph. Applicant's further citation and discussion of *In re Wilder* is noted. However, Wilder is concerned with a rejection under 112 1st. paragraph, and since no such rejection has been made in the present application, Wilder is not germane to the issues of the present application. Applicant's reference to page 9, lines 7-14 of the specification is noted, however, this portion of the specification does not discuss the control means controlling using the predetermined speed. Applicant's further reference to the drawings is noted, however, the drawings cannot provide antecedent basis in the specification for the claim terms. It is noted that the drawings were never objected to for failure to depict claimed subject matter. Rather, applicant must merely amend the specification to conform with the claims without introducing new matter. Such an amendment would overcome the present objection.

Allowable Subject Matter

Claims 1 and 3-16 are allowed.

Conclusion

This application is in condition for allowance except for the following formal matters:

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: The specification does not provide antecedent basis for the terms predetermined speed and predetermined position, as they are used in the claims. The specification refers to ideal speed and ideal position. The examiner recognizes that the ideal speed and position are in fact predetermined values, and thus the specification is enabling, however, the specification does not use the terms predetermined speed and predetermined position as they are used in the claims.

.Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
